Purpose of this Project
The purpose of any animal project is to help teach youth life skills. Life skills are skills that youth need in order to transition into a healthy, responsible adult. Animal projects specifically target the life skills of:

- **Responsibility** (feeding and caring for an animal on a regular basis)
- **Determination** (working with the animal on a regular basis in order to show it)
- **Record keeping** (keeping a record of the animal’s health and feeding)
- **Money/Resource Management** (keeping track of how much money or other resources have been invested in the project, and managing money and resources wisely)
- **Sportsmanship** (practice being a good winner and a good looser through competition with peers and with self. Dealing with constructive criticism, even when you’ve given your best is a very hard lesson to learn, but a very valuable one!)
Keeping records is an important part of any project, but especially for a market animal project. If you don’t keep any records, then you have no idea whether you made money or lost money at the end of your project.

Expenses and Income

An expense is something that you pay for, or that costs you money. Your project expenses include the cost or value of your animal at the beginning of the project, what you paid for feed, what you paid for veterinary bills, and what you paid to show your animal.

Income is money that your project brings you. Examples of project income include what your animal is worth at the end of your project (or what someone pays for your steer), any show premiums you win, and any sponsorships you are given.

*Your project begins the day that you take possession or responsibility of your animal.*

PROJECT EXPENSES

Animal Expenses
What you paid for your steer (or the value of your steer if it is given to you or you raised it yourself). If you bought your animal, simply write down the actual purchase price. If you were given your steer, or if it was born on your property, simply write down the fair market value of your steer. As a general rule, the fair market value of a 400-500 lb steer calf is between $480 and $600.00(approximately $1.20 per lb).

TOTAL PROFIT OR LOSS $_____________

Subtract your total project expenses from total project income. This is your total profit or loss.
Project Story

Your story should answer the following questions about your project experience:

1. What is the breed of your animal, and where did you get it?
2. What new skills did you learn from this project?
3. Who helped you with this project?
4. What did you like best or least about this project?
5. What would you do differently, if anything, next time?
Project Photos

Include at least three photos of your project with captions that describe what is happening in the pictures. If you like, you can add pages to include other items and memorabilia, such as your exhibitor numbers, stall cards, ribbons won, etc.
